Profile

Motivated and dedicated Higher National Diploma in Information Technology (HNDIT) undergraduate with a passion for technology and innovation. Equipped with knowledge of software development, database management, web technologies, and information systems gained through academic learning and hands-on projects. A fast learner with strong analytical thinking, problem solving, and teamwork skills, committed to continuous professional development. Seeking an opportunity to apply technical knowledge, gain practical industry experience, and contribute effectively to organizational success while building a rewarding career in the IT industry.

Education

Higher National Diploma in Information Technology - Current GPA 2.91 Sri Lanka Institute of Advanced Technological Education Advanced Technological Institute - Tangalle	2023 - Present
G.C.E Advanced Level Physical Commerce Stream Embilipitiya National College	2018-2021

Projects

Online Job Portal (Individual Project-Ongoing)

PHP | JavaScript | Visual Studio Code | CSS | HTML | GitHub | Free Hosting | MySQL | Chrome

- Designed and developed a full-stack web-based job portal connecting job seekers with employment opportunities.
- Developed responsive frontend interfaces using HTML, CSS, and JavaScript for an interactive user experience.
- Implemented server-side functionality using PHP and managed application data using MySQL.
- Developed features for job listings, job searching, user management, and job application management.

Garment Inventory Management System (Individual Project)

PHP | JavaScript | Visual Studio Code | CSS | HTML | GitHub | Free Hosting | MySQL | Chrome

- Developing a full-stack web-based inventory management system designed for garment industry operations, including products, inventory, suppliers, warehouses, purchases, production, sales, and reporting.
- Implementing responsive user interfaces and PHP/MySQL backend functionality to support inventory tracking, data management, and streamlined business operations.

Pharmacy Inventory Management System (Group Project)

C# | SQL | Visual Studio Code | GitHub | Chrome

- Developed a desktop-based pharmacy inventory management system for managing medicine and inventory-related information.
- Implemented database-driven functionality using C# and SQL to support efficient inventory data management and record handling.

Bank Management System (Individual Project)

Java | Java Swing | MySQL | Visual Studio Code | Chrome

- Developed a Java-based bank management system for managing customer and banking-related information.
- Implemented core banking management functionality through a structured application interface.

Electricity Billing System (Individual Project)

Java | Java Swing | MySQL | Visual Studio Code | Chrome

- Developed a Java-based electricity billing system for managing customer, meter, billing, and payment information.
- Implemented functionality for electricity bill management and payment-related record handling.

Garment Employee Management System (Individual Project)

C# | Visual Studio | Microsoft Access | Chrome

- Developed a database-driven employee management system to organize and manage employee records within a garment industry environment.
- Designed database forms and data management functions to support efficient employee information storage, updating, and retrieval.

Bookshop Management System (Individual Project)

C# | Visual Studio | Microsoft Access | Chrome

- Developed a database management system to organize and maintain bookshop-related records and operational information.
- Created structured database forms and queries to improve data entry, record management, and information retrieval.

Technical Skills

- Programming Languages - HTML, CSS, Java, JavaScript, PHP
- Databases - MySQL
- Version Control - GitHub
- Tools - Figma, Visual Studio Code (VS Code), IntelliJ IDEA, WordPress
- Concepts -Object-Oriented Programming (OOP), Agile Development

Soft Skills

- | | | |
|---------------------------------|---------------------------|-------------------------------|
| • Team Collaboration | • Leadership & Initiative | • Strong Communication Skills |
| • Quick Learning & Adaptability | Problem-Solving Skills | • Multitasking Abilities |

Certificates

Web Design for Beginners (Ongoing)

University of Moratuwa

Basic of Artificial Interlligence(Ongoing)

uniathena

ICTT NVQ Level 4

NAITA

Python for Beginners (Ongoing)

University of Moratuwa

Adobe Photoshop Basic to Advanced
